SUMMARY

Software Engineer and Computer Science undergraduate with **1.5+ years** of industry experience across **three companies**, building full-stack web and mobile applications, scalable REST APIs, and data pipelines using Python, Java, JavaScript, React.js, Node.js, FastAPI, Spring Boot, and PySpark. Experienced in GenAI systems with Retrieval-Augmented Generation (RAG), LLM APIs, and vector databases.

EXPERIENCE

Software Developer Intern | Infinite Analytics, Mumbai

Aug 2026 – Present

Python, FastAPI, Apache Spark (PySpark), React.js, Jenkins, Git

- Automated manual data ingestion for audience reports into an end-to-end **data pipeline** powering a monitoring dashboard, eliminating **4–5 hours** of manual effort per reporting cycle.
- Shipped features and resolved production bugs in the **Customer Data Platform (CDP)** pipeline using **PySpark** and Python, improving reliability of large-scale data processing jobs.
- Developed React.js dashboards on FastAPI REST services, with **Jenkins CI/CD** pipelines for automated deployment.

Software Developer (Part-Time) | Gigzi, Mumbai

Aug 2025 – June 2026

React Native, React.js, Node.js, Express.js, MongoDB, Redis, Pinecone, RAG, Git

[gigzi.in](#) | [Play Store](#)

- Launched a cross-platform artist booking app (**live on Google Play**) using React Native, Node.js, Express.js, and MongoDB, covering artist discovery, search, authentication, and booking.
- Engineered a **GenAI artist discovery assistant** using **RAG** with Gemini API, Pinecone vector search, and Redis caching.
- Created reusable frontend components and contributed to REST API design, code reviews, and Git workflows.

Software Developer Intern | Medisage, Mumbai

Jan 2024 – July 2024

React.js, Next.js, Node.js, Laravel, Tailwind CSS, SQL, MongoDB, Git

- Built responsive web features and reusable UI components in React.js, Next.js, and Tailwind CSS.
- Automated Excel-to-SQL data ingestion, cutting manual data entry by **60%** and saving **5+ hours weekly**.
- Designed REST APIs that improved cross-module data sync by **30%** and reduced API latency from **1.2s to 400ms**.

PROJECTS

Knowly AI — Multi-Tenant RAG Knowledge Platform | GitHub

Python, FastAPI, MongoDB, Gemini API

- Architected a **multi-tenant** platform with **JWT authentication**, user-level data isolation, and RAG-based querying.
- Implemented a document-processing pipeline with overlap-based chunking and **384-dimensional** Sentence Transformer embeddings, indexed in **MongoDB Atlas Vector Search** for semantic retrieval.
- Generated grounded Gemini LLM responses with **source citations** on a repository-service architecture.

Nucleus — Project Management System | GitHub

Java, Spring Boot, PostgreSQL, AWS RDS, AWS S3

- Modeled a full-stack, Plane.so-inspired platform with a hierarchical **Workspaces, Projects, and Tasks** structure supporting team collaboration, task assignment, status tracking, and **role-based access control**.
- Exposed scalable Spring Boot REST APIs on **PostgreSQL (AWS RDS)** with **AWS S3** for profile media, implementing authentication, DTO-based API design, and centralized exception handling.

Inaya — Fashion E-Commerce Platform | Live

React.js, Node.js, Express.js, MongoDB, Tailwind CSS

- Streamlined e-commerce workflows (authentication, cart, IP-based delivery logic) for **20% faster** order processing.
- Delivered an admin UI with **15+** modules and a dashboard tracking **20+** metrics, raising efficiency by **40%**.

EDUCATION

Thakur College of Engineering and Technology, Mumbai

Sep 2024 – July 2027

Bachelor of Engineering (B.E.) in Computer Science and Engineering

CGPA: **8.51/10**

Government Polytechnic Mumbai

Sep 2021 – July 2024

Diploma in Information Technology

Percentage: **91.33%**

TECHNICAL SKILLS

- Languages & Frontend:** Java, Python, JavaScript, SQL, C, HTML, CSS | React.js, React Native, Next.js, Tailwind CSS
- Backend & Cloud:** Node.js, Express.js, Spring Boot, FastAPI, Laravel, REST APIs, JWT, AWS (RDS, S3)
- Databases:** MongoDB, PostgreSQL, MySQL, Redis, Pinecone, MongoDB Atlas Vector Search
- Data & GenAI:** Apache Spark (PySpark), Data Pipelines, RAG, LLM APIs (Gemini), Vector Embeddings, AI Agents
- Tools & Fundamentals:** Git, GitHub, Jenkins, CI/CD, Postman, Linux | DSA, OOP, DBMS, OS, Networks

ACHIEVEMENTS

- Winner, Technathon 2024:** 1st place out of 800+ teams in a 24-hour hackathon. Feb 2024
- Extra Mile Award, Medisage:** recognized for ownership of additional project goals. June 2024
